

Innovation Workshops:

Bringing a Million Solar Cookers to Africa

16:30 - 19:30 on Tue 5th, Mon 11th and Wed 20th of November 2024
at Design Factory Studio, Aalto University, Aalto-yliopisto Puumiehenkuja 5 Otaniemi

Join our inspiring workshops aimed at students who want to make a real-world impact! Collaborate to develop a go-to-market strategy to distribute solar cookers to one million African households.

Key Facts:

- 2,000 solar cookers have already been deployed in Kenya by Lions Clubs.
- A local manufacturing and educating network is in place.
- Solar cookers reduce deforestation and CO2 emissions, while also freeing mothers' time by replacing the need to gather firewood with solar energy.

What You'll Gain:

- Be part of a mission to improve living standards and reduce deforestation and CO2 emissions.
- Learn how to create go-to-market strategy and the Innotiimi innovation process used by top companies as e.g. Goodmill Systems, Wärtsilä, UPM, Tieto and ABB.
- Be part of the solution by innovating for good.
- Earn a "Certificate of Contribution for Million Solar Cookers to Africa" into your LinkedIn profile.

Sign up at <https://bit.ly/3XTi8yK>

There are spots available for the first 30 student participants.
